Hubera must read for those that are seeking truth. the author wrote an easy to understand book about a seemingly complex subject that is relevant to all sentient beings. Along with explanations he also provides methodology to achieve the results, wisdom and method, again a great book.

Quantum Buddhism aims at providing a set of tools to develop a scientific-spiritual approach to the world, unburdened by traditional cultural ritualistic and dogmatic weight, where development of the self prevails to become a conscious scientific instrument. Along reading this book, you will learn a good basis of theory and application of this technique on transcending the human senses to perceive the spiritual world. The Unified Quantum Field is for science what the Supreme Consciousness is for spirituality. Each wave function of the multi-dimensional quantum field is a thought of the highest nature in the Supreme Consciousness. Each of these supreme thoughts comprises the whole of an experience of life. Every parameter of a human thought, a signal in the nervous system, an action, an interaction, a sensation and the awareness of the experience is a single equation resumed as a quantum wave function that is self-contained within all its parameters. Everything is ONE.

About the Author Maha Vajra is a modern day enlightened spiritual master. His teachings contain wisdom from more than 23 years of experience on a spiritual path. He masters oriental and occidental spirituality alike, yet most of what he teaches he acquired during his enlightenment experience. Although he is a Buddhist Acharya (bishop), his teachings are from Buddhism, Taoism, Hinduism, Kabbalah, Christianity, and are non-dogmatic. He teaches healing to holistic healers, empowerment to martial artists, ESP to justice enforcers (police, swat, security agencies...). We are all ONE.
